

# Swing On Down

**Donavon Frankenreiter**

(Swing on down, swing on down to me)  
(Swing on down, swing on down to me)

In the morning when the sun still shines  
the last star lingers in the pale blue sky  
that's when I know your around  
Said that's when I know your around

And in the evening when the light comes through the trees  
The birds will sing a song as if they're singing to me  
That's when I know your around  
Said that's when I know your around

I'm dreaming if you could  
Swing on down, swing on down to me  
I wanna know if you would  
Swing on down, swing on down to me  
Every time I see something like that  
(Swing on down, swing on down to me)  
I want you to  
(Swing on down, swing on down to me)  
Baby, won't you just  
Swing on down to me

Every time the rain comes down but the sun still wants to shout  
That's when I know your around  
I said that's when I know your around

You know all the colors, they just speak to me  
Tell me stories of how it used to be when you were still around  
I wish you were still around

Cause I want you to swing on down  
Swing on down to me  
From the clouds won't you just  
Swing on down to me  
Baby won't you just  
Swing on down to me  
It's gonna feel so good  
And all the colors they tell me things

The birds and the trees  
And the stars in the sky
