# White Trash (2nd Generation)

## Bad Religion

Wasted children
Fixed blank eyes
Blood and sweat
We socialize
Broken homes
From which they come
Beer stained dad
Complianin' mom
Fear love, much despised
Replaced with comfortable lies
Teenage classic, more cliche
One step further on the edge of decay
White trash, second generation
White trash, second generation
White trash, second generation
Don your crown and cleanse the nation
Are you ready to fight
For your morality?
Right wing allies
White supremacy
Pretty fascist
On the tube
Draped in red
And white and blue
White trash, second generation
Stupid foibles, indignation
Offspring of suburban fright

Pearl white creatures of the night
White trash, second generation
White trash, second generation
White trash, second generation
Don your crown and cleanse the nation
Stiff blue collar
Coat and tie
Brand new breed
Side by side
Christian ethics
Right extremes

Shoved down our throat
As the American dream
White trash, second generation
Stupid foibles, indignation
Offspring of suburban fright
Pearl white creatures of the night
White trash, second generation
White trash, second generation
White trash, second generation
Don your crown and cleanse the nation
White trash, second generation
White trash, second generation
White trash, second generation
Don your crown and cleanse the nation
