BASECAMP

I know you think you can't trust me
And I know that maybe you're right
Cuz I came and went
I left you again
With a wound you cannot hide You caught me out in the open
You drew a bead on my heart
But you come and go
You reap what you sew
Never finish what you start Set the trap
Fall back
To the trees
You're my favorite one to fight
Such a beautiful machine
Cover tracks
Never fall asleep
We could do this all night
We'll never break from this cycle Now Our double helix will spiral Down Keep low
And wait for you to lead
You're my favorite one to fight
Such a beautiful machine Too late for making amends now
Too far to throw in reverse
So we spoke our piece
Then spread our disease
Over every inch of dirt
You wouldn't be taken hostage
And I wouldn't lay down and bleed
So we cut the ties
Said fuck the disguise
Never trust what you can't see Set the trap
Fall back to the trees
You're my favorite one to fight
Such a beautiful machine Cover tracks
Never fall asleep
We could do this all night
We'll never break from this cycle Now Our double helix will spiral Down Can't hide
Burned through all the leaves Used up everything we had Brought the forest to it's knees
