

Preying On the Helpless

Dead to Fall

You took everything in a single action
Caring only for your instant gratification
You smashed their world
And took everything away
Preying on the helpless children
You took everything in a single action
Caring only for your instant gratification
You smashed their world
And took everything away
The consequences are reaped for your actions
The seed of destruction is sown
And I don't care what you plan to accomplish
And I won't allow you to hurt anymore
Your days are numbered
Preying on their lives
Preying on their souls
Preying on the helpless children
