

Fire Spirit (Live in Amsterdam 1983)

The Gun Club

I can see clearly from my diamond eyes
Going to the mountain with the fire spirit
No one will accept all of me
So the fire will stopUp through the streets and the gunfire of cars
Going to the mountain with the fire spirit
But no one will take all of me
So the fire will stopI will be cheating the whole ritual
I'm going to the mountain with the fire spirit
No one will expect all of me
So the fire will stop, ohSomeone will say out of the circle
Someone will turn and burn the world
Someone knows a better cell
Where the old North wind blows
Through Southeast hell, yeahInvention was betrayed by the machine
Promised like it was a promise to me
I'm going up to the mountain to see
How the last thing will set me free, yeahI had to do something
I was very down
I was going downWhy can no one ever touch a fire spirit?
And why can no one ever hold a fire spirit?
Why can no one ever feel a fire spirit?I am going to the mountain
I am going to the mountain
I am going to the mountain
I am going to the mountainAnd I can see clearly from my diamond eyes
I'm going to the mountain with the fire spirit
No one will accept all of me
And so the fire will stopWith too much patience and too much pain
I'm going to the mountain with the fire spirit
To make amends for all of me
And the fire will stop
