

# Way Back Home (The Juan MacLean Instrumental Mix)

## Bag Raiders

Rain pours down over a city  
Night has fallen like a stone  
Are you gone or are you with me?  
    In my heart I'll never know  
    If I close my eyes I'll see you  
    Hear your footsteps in the rain  
    In my dream I'll never find you  
but I'll hear you call my nameAs I tread through crowds of people  
    Trying to keep from looking back  
    Got your sense on something passing  
And it sends me off my trackDo I find you will I follow  
    To forever and a day  
    I can feel you in the distance  
But you seem so far awayWhat if I just can't find my way back home (ooh)  
    What about all the things I just don't don't know (ooh)  
    What if I just can't find my way back home (ooh)  
    Would you be there to show me where to go (ooh)
