

Like You Ainâ€™t Even Gone

Florida Georgia Line

I still riding around town
With the windows down
And your feet upon my dash
Got your rays on and my hands back
And we're feeling cool as cash
The night is on, like you ain't even gone
You go sliding through the static
Trying to find the song you love
Smoke rolling up and you showing up
Like a dime piece in the dust
You got me stoned
Like you ain't even gone

Sunset, dry light, Friday night
Round back, chill a dollar fifty Miller High Life
Headband, peace sign, looking fly, shotgun
Bullet going straight through a street sign

You had diamonds in your eyes
When you were smiling
Even pretty when you're crying
If I said I wasn't missing you I'd be lying
Well the truth is, well the truth is

I still riding around town
With the windows down
And your feet upon my dash
Got your rays on and my hands back
And we're feeling cool as cash
The night is on, like you ain't even gone
You go sliding through the static
Trying to find the song you love
Smoke rolling up and you showing up
Like a dime piece in the dust
You got me stoned (it still feels so right)
Like you ain't even gone (like you ain't even gone)
You ain't even gone

Midnight calling me looking for trouble
Slipping them should have beens in my ear

Got me sipping down those memory double
Blue eyes, summer smoke, sunburn red
Said you were leaving this town, got to runaway
I watched you run away
And girl you should have chased down

Those diamonds in your eyes
When you were smiling
Even pretty when you're crying
If I said I wasn't missing you I'd be lying
Cause the truth is, girl the truth is

I still riding around town
With the windows down
And your feet upon my dash
Got your rays on and my hands back
And we're feeling cool as cash
The night is on, like you ain't even gone
You go sliding through the static
Trying to find the song you love
Smoke rolling up and you showing up
Like a dime piece in the dust
You got me stoned (it still feels so right)
Like you ain't even gone (like you ain't even gone)
