

# One Size Fits All

Novi Novak

One size fits all that dont apply to shoes  
So it surely don't apply to how im bout to move  
I came around from nothin  
The sound of somethin  
Thats why my buzz bangin like a round is bustin  
Now which worth more, and how should I ask?  
Cuz the devil want souls, he don't want cash  
Im the best at what I do for the real, uh/I  
Thank god I ain't become a serial killer  
Hahaha yea I laughs at that  
Then again when you think from the perspective of a track  
Matter fact I Daumer that  
Theres still like 6 beats stuck in my digestive tract BLAAA!

Ohhhhhh, You'll slowly learn it don't grow on trees but it's whatcha need  
It's whatcha need it's whatcha need it's what ya need  
Ohhhhhh, You'll slowly learn if it's what ya seek then that's what ya be  
That's whatcha be That's whatcha be That's whatcha be

Life ain't exactly what it used to be  
I feel closer to the people that was close to me  
Cuz see, money has a face, If you share it with the people that loved you before you got it in the first place  
I came from.... NOTHIN! that describes where I'm from  
South side chicago the verge of a slum  
I still get confused by the buldges in my jacket  
Thinkin I only got a few bucks left outta habit  
I say whatever beat pull outta my soul  
Thats why every song is like a different song so  
Unique in a fashion, certain artist bashin  
While I do what I do braggin the swag just happen  
Lets takem to the home spot  
Talkin too much'll get ya dome popped  
Chicago reminds me rap like a boom box  
New rappers savin us, long shot, thats a Long shot!

Ohhhhhh, You'll slowly learn it don't grow on trees but it's whatcha need  
It's whatcha need it's whatcha need it's what ya need  
Ohhhhhh, You'll slowly learn if it's what ya seek then that's what ya be

That's whatcha be That's whatcha be That's whatcha be

So I know that money talk, imagine more of it  
Got cases full yet people kill over a drawers of it  
Lets make it more public

As me n my flow got 3 quarters of the whole earth covered  
See I looked in the rap shit and did it like school  
For years I did this rap shit lookin like a fool  
Said I couldn't do it, well who the fuck are you?  
And who do you influence? Thats my attitude

Ohhhhh, You'll slowly learn it don't grow on trees but it's whatcha need  
It's whatcha need it's whatcha need it's what ya need  
Ohhhhh, You'll slowly learn if it's what ya seek then that's what ya be  
That's whatcha be That's whatcha be That's whatcha be
