

Push The Sky Away (Live @ L.A.)

Nick Cave & The Bad Seeds

I was ridin, I was ridin, oh
The sun, the sun, the sun was rising from the field I got a feeling I just cant shake
I got a feeling that just wont go away
Youve got it, just keep on pushing, keep on pushing
Push the sky away And if your friends think that you should do it different
And if they think that you should do it the same
Youve got it, just keep on pushing, keep on pushing
Push the sky away And if you feel you got everything you came for
If you got everything and you dont want no more
Youve got it, just keep on pushing, keep on pushing
Push the sky away And some people say its just rock n roll
Aw, but it gets you right down to your soul
Youve got it, just keep on pushing, keep on pushing
Push the sky away Youve got it, just keep on pushing, keep on pushing
Push the sky away Youve got it, just keep on pushing, keep on pushing
Push the sky away
