

Think I'm Gonna Feel Better

The Byrds

I think, I'm gonna feel better when tomorrow comes
When I see the sun through my window
I think that everything is going to be all right
Though I know that you have found another I hope you understand that I still love you so bad
But when tomorrow morning comes
I hope that you will see the sun shine too
Come shining through I hope you understand that I still love you so bad
But when tomorrow morning comes
I hope that you will see the sun shine too
Come shining through I think, I'm gonna feel better when tomorrow comes
When I see the sun, when I see the sun
