

# On the Line

## The Outfield

You keep telling me everything's gonna be cool tonight  
I keep thinking that you might be going outta your mind  
It's a perfect little invitation  
But I gotta lot of reservations So leave a message on the line for me  
Girl, you know I'm gonna need a sign  
And if you wanna take a ride with me  
You better call me up, leave a message on the line You keep telling me he don't got a clue about anything  
But I keep thinking that he knows it's going on all right  
I guess I've got a lot of hesitation  
I'm gonna give it some investigation So leave a message on the line for me  
Girl, you know I'm gonna need a sign  
And if you wanna take a ride with me  
You better call me up, leave a message on the line I keep thinkin' that I'm gonna need a rocket just to calm me  
down  
But you keep telling me everything's gonna be fine  
I don't wanna be your service station  
You could always get a good vibration So leave a message on the line for me  
Girl, you know I'm gonna need a sign  
And if you wanna take a ride with me  
You better call me up, leave a message on the line Leave a message on the line for me  
Girl, you know I'm gonna need a sign  
And if you wanna take a ride with me  
You better call me up, leave a message on the line
