

# Estranged (Unplugged)

## Ambeon

No need  
To talk  
You cut me off and pull away  
The heat is freezing again  
It tears out my heartDisguise  
Pretend  
Break down the whole fantasy  
The distance remains, everlasting  
It leaves me wonderingWhy do you change this fast  
It's not fairFeel again  
That's what we've missed  
The whole time  
Misplaced love remains, everlasting  
It leaves me wonderingWhy do you change this fastIt's not fair
