

Cleopatra

Anik Khan

Tell me that you love me
Make sure that you mean it
And I'll treat you like royalty
That's just how I see it
Papa raised a king, the shit I bleed is Royal
So get up on this throne and I'll forget that I had morals
I'm a motherfucking pharaoh, that done grew up on the corner
You can always judge a man with how much weight is on his shoulders
That's why I need my lady, yeah, I need my lady
To wanna build this legacy with me[Pre Chorus: Anik Khan]
You remind me of Africa - Cleopatra
Lead me in to your castle - Cleopatra
We can rise above it all
So bury us in the Taj Mahal - Cleopatra
[Chorus: Anik Khan]
You feel like diamonds and gold [x3]
You look like diamonds and gold [x3][Verse 2: Anik Khan]
Tell me that you love me- make sure that you mean it
I've been going through some things and god knows I need it
See I can't fight this fight alone
Every ruler needs a you at home
Now do I look like I'd be taking orders?
I'm breaking borders
Claim my territory, and take shit over
That's why I need my lady, I need my lady
Who wants to build this legacy with me[Pre Chorus: Anik Khan]
You remind me of Africa - Cleopatra
Lead me in to your castle - Cleopatra
We can rise above it all
So bury us in the Taj Mahal - Cleopatra
(Chorus)
You feel like diamonds and gold [x3]
You look like diamonds and gold [x3]
Diamonds and gold [x3]
You are my diamond and gold [x2][Bridge: Anik Khan]
Baby I see you calling with those bedroom lights
You were dressed in nothing, I was dressed in white
Now there's too many turns we can take this night - can you fill me in?
There for each other, we don't answer phones

Dark liquor bottle - half the contents gone

All this love, you know that you own

Can you fill me in?(Chorus)

You feel like diamonds and gold [x2]

You are my diamond and gold

Diamonds and gold

You feel like diamonds and gold [x2]

You are my diamond and gold

Diamonds and gold»¿
