

Conversation

Jaheim

We pushed up in the club, ladies showin' love
Doin' things you know that playas do
I peeped love at the door, she bounced across the floor
Couldn't ignore the way her body moved I post up at the bar, she looking like a star
Like she just stepped out of a magazine
And then I recognized, bow legs and chinky eyes
Head to toe you know this shorty was mean so Let's have some conversation
I really wanna learn about ya
Really wanna get to know ya
Let's have some conversation
I really wanna learn about ya
Really wanna get to know ya She came up out the mink, "Love, what you tryna drink?"
"Now it don't matter, girl, I got what you need"
Ooh, she licked her lips, I fixed my hat
Then love pulled out that purple sack
"Can we smoke that? Can I hit that?", She said all that Let's have some conversation
I really wanna learn about ya
Really wanna get to know ya
Let's have some conversation
I really wanna learn about ya
I really wanna get to know ya Girl, you're so fine, I want you to have my number
Whenever the place or time will do
That's when I'm gonna come through
Hit me when you're ready Don't wanna hear no if's but's and maybe's, girl
Lover it's on you as soon as you hit me I'ma come through Let's have some conversation
I really wanna learn about ya
Really wanna get to know ya
Let's have some conversation
I really wanna learn about ya
Really wanna get to know ya Let's have some conversation
I really wanna learn about ya
Really wanna get to know ya
Let's have some conversation
I really wanna learn about ya
I really wanna get to know ya
