Wrecking Ball

Alyssa Bernal

Verse 1:
I remember the day we met,
Fireworks and the world was perfect,
First kiss I could never forget,
But something was missing,
I see our love like a magazine,
Playing love like I've seen in a movie,
But what do all those bright lights mean,
If my heart keeps running?
Instead of breathing,
I keep holding my breath,
(Holding my breath),
This love is leading us nowhere,
Chorus:
You think you can read my mind,
But this is not another love song,
Don't even waste your time,
I'm already gone,
Maybe in another life baby,
Nothing you can do could ever make me stay,
Cause I'll just break down these walls,
Like a wrecking ball,
Like a wrecking ball,
Verse 2:
Woke up with the setting sun,
These dreams are all I see lately,
All the thing that we should have done,
Can't hold us together,
Someday I hope you understand,
I look back and baby you'll thank me,
Right now I know that you can't let go,
Of the thought of us forever,
Chorus:
You think you can read my mind,

But this is not another love song,
Don't even waste your time,
I'm already gone,
Maybe in another life baby,

Nothing you can do could ever make me stay,
Cause I'll just break down these walls,
Like a wrecking ball,
Like a wrecking ball,
Bridge:
It's all starting to crumble,
It's all coming down,
Climb up through the rubble,
There's no easy way out,
No we're not gonna make it,
I think it's time that we face it,
Cause nothing's gonna break our fall,
I'm a wrecking ball,
Chorus:
You think you can read my mind,
But this is not another love song,
Don't even waste your time,
I'm already gone,
Maybe in another life baby,
Nothing you can do could ever make me stay,
Cause I'll just break down these walls,
Like a wrecking ball,
You think you can read my mind,
But this is not another love song,
Don't even waste your time,
I'm already gone,
Maybe in another life baby,
Nothing you can do could ever make me stay,
Cause I'll just break down these walls,
Like a wrecking ball,
Like a wrecking ball.
