Burning Road

Fu Manchu

Circle the world
And fly by night
I had a hunch
Why did they try?42 days long
Turbines had fried
Impossible
Genius says alrightBurning road
Seen more than they know
Burnin' road
On and on they rollCenter space has gone
Keepin' a straight line
El Camino soars
Disappeared from sightBig block made news
Try to analyze
The pressure crew
Genius says alrightBurning road
Seen more than they know
Burnin' road
On and on they rollWaiting for
Close at hand
I think you're right
Now what's your planA few hours passed
Now lost sight
Ask me again
Genius says alrightBurning road
Seen more than they know
Burnin' road
On and on they roll
