Ancient History

Pam Tillis

We can talk and talk all night
If you want to that's all right
Till I've heard every word you've got to say
Go ahead and take your time
If you've got something on your mind
Oh but it won't change the way I feel anywayThat's ancient history to me now
Something we don't have to talk about
You know I love you anyhow
That's ancient history to me nowThere's a tale you've got to tell
How you stumbled and then you fell
Oh but I guess I knew that all along
And my love there's times when we
Are weaker than we'd like to be
Oh and I could tell some stories of my ownThat's ancient history to me now
Something we don't have to talk about
You know I love you anyhow
That's ancient history to me nowThat's ancient history to me now
Something we don't have to talk about
You know I'm gonna love you anyhow
That's ancient history to me now
Oh you know I love you anyhow
That's ancient history to me now
