

# Frittering

## Mercury Rev

I've seen you eat away  
Slow as a glacier makes its way down to the Rhine  
I've seen you fritter away  
Slow as a glacier makes its way down to the Rhine And you wonder why I leave so soon  
How I get so high, sink to the bottom of your room  
Room I wonder why I stay  
Slow as a glacier makes its way down to the Rhine  
I seen you chisel away  
Hammer in place, always in time I wonder what to do  
Slow as a glacier takes to move on through the world
