I Don't Want You Anyway

Hear'say

Keep my CD's and books cos my taste has changed anyway
Leave your worries and troubles behind
With the keys to my place
You say that I'll worry
And I can't let you go before
Before I go insane don't need you to explain
Don't want your sympathy gotta tell you finally
Before you walk away there's something I need to say
I didn't want you anyway
I didn't want you anyway
Each step was a little bit further away from
What we never had
You can kid yourself but oh brother
Can't you see that you're just makin' me mad
You say that you're sorry
It doesn't work anymore before

Before I go insane don't need you to explain
Don't want your sympathy gotta tell you finally
Before you walk away there's something I need to say
I didn't want you anyway
I didn't want you anyway
Keep my CD's and books cos my taste has changed anyway
Before I go insane don't need you to explain
Don't want your sympathy gotta tell you finally
Before you walk away there's something I need to say
I didn't want you anyway
I didn't want you anyway
Before I go insane don't need you to explain
Don't want your sympathy gotta tell you finally
Before you walk away there's something I need to say
I didn't want you anyway
I didn't want you anyway
