

# Believer

Keyshia Cole

It's only right, boy  
To touch you like I'm touching you, right now  
To give you everything you need, ooh boy  
You don't have to worry, not at all  
Remember last night, boy  
I screamed loud "Oh my God!" it felt right, boy  
We got so loud, they told us to pipe down  
But once we turn it on can't turn it off In the morning right before I let you get up  
I love you down and make you where is hard to get up  
From my lips won't miss a spot, then work your way up  
Lift my hands and feet up Make you a believer  
A true believer  
On your knees, believer  
Boy I'ma leave ya  
Praying that this night will never end, believer  
Make a believer  
Tonight your faith is going deeperr  
As your knees get weaker  
I'ma have you shoutin' out It's only right, boy  
To do you like a woman is supposed to  
Won't stop until you will want to propose, oh  
Rush into forever, let's go  
It's only right, boy  
You wanna get a kiss to me, right now  
The one to win your heart into the crib boy  
We got something special, like no In the morning right before I let you get up  
I love you down and make you where is hard to get up  
From my lips won't miss a spot, then work your way up  
Lift my hands and feet up Make you a believer  
A true believer  
On your knees, believer  
Boy I'ma leave ya  
Praying that this night will never end, believer  
Make a believer  
Tonight your faith is going deeper  
As your knees get weaker  
I'ma have you shoutin' out I believe  
I believe  
I believe

I believe Make you a believer  
A true believer  
On your knees, believer  
Boy I'ma leave ya  
Praying that this night will never end, believer  
Make a believer  
Tonight your faith is going deeper  
As your knees get weaker  
I'ma have you shoutin' out I believe  
I believe  
I believe  
I, I believe I'ma have you shoutin' out  
I believe
