

Sentenced to Burn (Live - Party San 2005)

Cannibal Corpse

Follow the one evil masked in pride
Charisma to lead, speeches laced with hate
Leading the dense the bovine human herd
Inherently stupid, the fools deserve this fate Warfare begins, cities are ablaze
Tortured screams, skin turning black
Carbonization, they will all burn
Mass execution, they will all die Burning the world and all of it's life
Throwing all the people in a pit of fire
Watching the sheep gathering to die
Followers in life, follow to the grave Follow the one evil masked in pride
Charisma to lead, speeches laced with hate
Leading the dense, the bovine human herd
Inherently stupid, the fools deserve this fate Warfare begins, cities are ablaze
Tortured screams, skin turning black
Carbonization, they will all burn
Mass execution they will all die Pile the bodies, set them aflame
The human race, sentenced to burn
Burning flesh, miasma of their death
Civilization, it is destroyed Pits of corpses, unholy grave of war
Hanging victims, guilty of free thought Warfare begins, cities are ablaze
Tortured screams, skin turning black
Carbonization, they will all burn
Mass execution, they will all die Pile the bodies, set them aflame
The human race, sentenced to burn
Pile the bodies, set them aflame
The human race, sentenced to burn War of fire shred their souls
Burn in hell doomsday's toll
Failed to see the trap they laid
Demagogues lead them into the flames Pile the bodies, set them aflame
The human race, sentenced to burn
Pile the bodies, set them aflame
The human race, sentenced to burn
