

It's Your Revolution

Tim Timmons

You are the air held in our lungs,
its not enough if we're not breathing;
What good is a song stuck in our heart,
if we don't sing the song, and start screaming;

Open up our eyes, make what we have inside...be,
more then just believing, more than words we say,
O'o'ah, we are Yours, it's Your revolution!!!
Lead on, we will follow, Your love stirs our soul,
Take us where You want to go, it's Your revolution!!!

You walk ahead, we fall behind,
the further we fade into the darkness,
For all the times that we run ahead,
Call us back to where Your heart is,

Open up our eyes, till what we have inside is...
more than just believing, more than words we say,
O'o'ah, we are Yours, it's Your revolution!!!
Lead on, we will follow, Your love stirs our soul,
Take us where You want to go, it's Your revolution!!!

O'o'ah...this could be the journey of a lifetime,
O'o'ah...we want to be tempered to Your timeline,
till what we have inside is...
more than just believing, more than words we say,
O'o'ah, we are Yours...
Lead on, we will follow, Your love stirs our soul,
Take us where You want to go, it's Your revolution!!!
more than just believing, more than words we say,
O'o'ah, we are Yours, it's Your revolution!!!
Lead on, we will follow, Your love stirs our soul,
Take us where You want to go, it's Your revolution!!!

O'o'ah, it's Your revolution, it's Your revolution.
