

Christmas Time

Backstreet Boys

(Ooh)
There is something special
About this time of year
The Christmas feeling's everywhere
I just got home to join you I've been away too long
(Been away too long)
But now I'm back to share my love
Friends are reunited, one big family
Filled with love to last throughout the year Christmas time
Time to share our love
Come and joy
The tiding's to the world Christmas time
The best time of the year
Yes, it's Christmas time You and me together
A sleigh ride in the park
A loving kiss straight from my heart
(Straight from the heart) Snowflakes are falling gently
The smell of chestnuts in the air
And Christmas lights they gleam
Across the sky
(Oh, oh, oh, it's Christmas time) Christmas time
Time to share our love
Come and joy
The tiding's to the world Christmas time
The best time of the year
Yes, it's Christmas time Do you remember?
(Do you remember?)
Everything felt so right
When I held you close to me
Do you remember?
Those cold Christmas nights
When we sawed the world in harmony Christmas time
Time to share our love
Come and joy
The tiding's to the world Christmas time
The best time of the year
Yes, it's Christmas time
(It's Christmas for all the boys and girls) (Christmas time, time to share our love)
(Come and joy, the tiding's to the world)
