

What Do You Want?

Attica Blues

Know you as a jet black angel
Watching over me like cctv
24/7 you see everything
365 and i'm no mastermind Dealt with mood swings mad behavior
Controlling me like you own me
Feels like it's your world i just live here
365 and it's bad compromise I want to know X2 Am i what you want or am i what you need X2 Patience wearing
sent to test me
Pressure building mercury rising
Feels close to overload, feels close to overload
365 I want to know X2
I wanna know Am i what you want or am i what you need X4 What do you want X2
Am I what you want X2
