Undertow

Lush

So, you want to be alone
Run and hide inside your home, home
Watch you fall away from me
Sinking into miseryTaste your smile and hold my hand
Make you laugh and make you dance
I remember this
Everything was in our kissSink my hands into the sea
(Sink my hands into the sea)
Reach your fingers up to me, me
(Reach your fingers up to me)Trust me one more time
I can only try
Throw yourself to me
And I'll try to pull you freeLet me try to pull you free
Let me try to pull you free
Let me try to pull you free
