

Let It Go

Jaheim

Yeah
So you want drama, huh?
We can do this
Well, well, well, well, well
I heard you've been poppin' lip, talking slick
If you want it, you can get it, we can handle this
My shorty keep telling me, you're stressing her out
You need to relax before I go up in and I'm out
I'm not the one to be played with
Your loose ass lips will get your dome split
You're getting me steamed and you don't wanna do that
You mess around and make me have to wile out and snap
I think you better let it go
Heard you been creeping round my baby's back though
Now what you sliding through here for?
I think you better let it go
I think you wanna let it be
'Cos if you want beef, I got the recipe
Now you don't really want no parts of me
I think you better let it be
Can't believe you came here, thinking 'bout what's gone
What the hell, is wrong with you son? Best be moving on
Before you go, gotta let you know
See those excuses you was using
You can't come here with that, there no more
She's been around the house, stacking what you bought
Everything you own is on the back porch
You're breaking the rules, kid, I've had enough
I'm 'bout to start hooking off with jabs and upper cuts
What? What? What? What?
I think you better let it go
Heard you been creeping round my baby's back though
Now what you sliding through here for?
I think you better let it go
I think you wanna let it be
'Cos if you want beef, I got the recipe
Now you don't really want no parts of me
I think you better let it be
Wilin' over this chick Ja, Slow you illin'

Probably be the next book by Terry McMillan
Open off of a Hennessey, seeing the remedy
Ready to pop ?em both like, like they breaking and entry
It's tempting, they'll turn your last name Simpson
Redemption, leave you in a center of detention
If he don't listen, air him out
It's Shorty, it ain't a game
It's what a playa about, cash flow
I think you better let it go
Heard you been creeping round my baby's back though
Now, what you sliding through here for?
I think you better let it go
I think you wanna let it be
'Cos if you want beef, I got the recipe
Now you don't really want no parts of me
I think you better let it be
Think you better let it go
