

# Skin Deep

Ted Heath

This attraction only to appearance  
Becoming your religion, looks are everything  
The only thing that means something to you  
Satisfaction only on the surface  
Your eyes are always focused  
Go on and let it show that  
There is no exception to the rule  
So fill the empty space  
With another pretty face  
You're skin deep, skin deep  
No one will ever be perfect in your eyes  
You're skin deep, skin deep  
Only scratching the surface for your prize  
First impressions are over in an instant  
You make your decision before you speak a word  
You end, you search the page already turned  
Every conquest filled with disappointment  
Lacking any substance  
Now you're out of words  
The lines are blurred you're never gonna learn  
So fill the empty space  
With another pretty face  
You're skin deep, skin deep  
No one will ever be perfect in your eyes  
You're skin deep, skin deep  
Only scratching the surface for your prize  
You're skin deep, skin deep  
No one will ever be perfect in your eyes  
You're skin deep, skin deep  
Only scratching the surface for your prize  
Look, all your life for beauty this fine  
So rare so hard to find  
Look, all your life for beauty this fine  
Never mind what's inside  
You're skin deep, skin deep  
No one will ever be perfect in your eyes  
You're skin deep, skin deep  
Only scratching the surface for your prize
