

# In This World

Barry Manilow

How have I found you?  
How in the world?  
Now that I've found you  
You are my world In these times that keep us guessing  
You're my answer and my blessing  
Pretty damn amazing given  
This peculiar world we live in In this world  
That's lost all its reason  
At last there's a reason  
For hope in my heart In this world  
Unsure of its future  
So sure of you  
I say, let the future start In this world  
That's yearning for someone  
To answer the call  
From out of the blue In this world  
I prayed there would come one  
Magnificent someone  
Someone like you In this world  
That's lost all its reason  
At last there's a reason  
For hope in our hearts In this world  
Unsure of its future  
Somehow with you  
I'm sure where the future starts In this world  
That's yearning for someone  
To answer the call  
From out of the blue In this world  
I prayed there would come one  
Magnificent someone  
Someone like you
