

Live On (Demo)

Delta Spirit

When miguel hit the ground
I threw the padlock in the trash
Finally found out
Just how much it takesFor one whole year he spent
Making me turn red
Forget the light ahead
Forget the light aheadDid I come to meet
The felon in my head
He's been stretching me
Right up on the racksFor years it's been the same
Ignoring all the facts
Forget the light ahead
Forget the light aheadIt'll all live onHiding from the moon
Under a live oak tree
How could I forgive
What you said to me?Sure as the sun will rise
You pay the penance in your bed
Forget the light ahead
Forget the light aheadIt'll all live onWe gotta leave at three
Take the highway round the bend
Holding on to memories
Never let a good night endBut as the morning came
I can't remember what I said
Forget the light ahead
Forget the light aheadIt'll all live on
