

Choose Drugs

[Juliana Hatfield](#)

I withhold your medicine
But you've still got a connection
They remember everything
In the sky, oblivion I never knew your innocence
Your white skin glistens
You pried my eyes open
I've lost my ambition I say it's me or drugs
You choose drugs
I say it's me or drugs
You choose drugs I say it's me or drugs
You choose drugs
I say it's me or drugs
You choose drugs Drugs, drugs.
