

# I Trust You

## Mary Mary

Just finished all of my school work,  
Washing the dishes when I heard,  
My Mama say she can't do this  
Didn't wanna pack up and move on He was just trying keep it together,  
But he couldn't do any better,  
We all know daddy was trying,  
We saw him praying and crying, Lord, I don't what to do but what I do know I trust you  
I don't what to do but what I do lord is that trust you Baby it's your decision  
What's best for you and me and the children  
I don't understand what you're doing  
What is this mess you got us in? She walked away disappointed  
Then He begin to question what God said  
Lord if you don't help me  
I just may lose my family Lord, I don't what to do but what I do know I trust you  
I don't what to do but what I do lord is that trust you  
Take all my possession and leave me with nothing,  
Take all my comfort and leave me in despair,  
And Just like in the Bible days when miracles would happen,  
You're still a great God and you can never fail me That's why I trust you and i  
I love you cause you proving yourself over and over again  
Cant' count just how many times  
I needed a friend you were standing right there in life That's why I trust you and i  
I love you cause you proving yourself over and over again  
Cant' count just how many times  
I needed a friend you were standing right there in life What a friend we have in Jesus
