

# Wait And See

## Jeff Kashiwa

We could choose to disregard it  
or have some fun and break it  
since god has just departed  
we could carry on or fake it  
who has a better plan  
what's the true nature of man  
what's money to your soul  
watch as money takes control

And is there space for every boy and girl  
in a competitive, material world  
I guess we'll have to wait and see  
and I'm trying too hard too believe

Know when to draw the line  
know there's a grand design  
know there's a better way  
I don't know and cannot say  
when my respect for man  
has taken all it can  
the purchase of your soul  
placate and we have lost control x2

Is it daddys little boys and girls  
become the acne on the face of the world  
I guess we'll have to wait and see  
and I'm trying too hard too believe

We could choose to disregard it x2  
who has a better plan  
what's the true nature of man  
what's money to your soul  
watch as money takes control

Is it daddys little boys and girls  
become the acne on the face of the world  
I guess we'll have to wait and see  
And is there space for every boy and girl  
in a competitive, material world  
I guess we'll have to wait and see

and I'm trying too hard too believe
