

Our Song (feat. Chris Antonio & Sharon Bryson)

Venceray

Remember when we used to laugh aloud
When we joke 'bout things like this one
Remember when we used to say hello
When we call each other at break dawn
Remember when we used to shout for joy
When all our worries will be gone
Remember when we used to play around
Like fools having so much fun Oh how we've grown so strong
Despite the troubles that come
And though we are so young
We're proud of the things we've done
They can say what they wanna say to give our wrongs
But we don't mind, we don't care, don't give a damn
Nothin' else matters when we are playin' Our song
This is our song
Singin' our song
Nothin' else matters
Our song
Playin' our song
List'nin' to our song
Coz nothin' else matters
When we are playin'
Our song Forever will our hearts be glad to smile
As we rise and shine like the sun
Together we can soar above the sky
And be everything that we want
If ever a time will come that we'd forget
This rhythm and beat shall live on
Coz even when we are worlds and stars apart
We'll still be singing the same song So now our lives go on
But there's still more troubles to come
And though how far we've run
There're things that need to be done
We may change throughout the way but it's okay
We don't mind, we don't care, don't give a damn
Nothin' else matters when we are playin' Our song
This is our song
Singin' our song
Nothin' else matters

Our song
Playin' our song
List'nin' to our song
Coz nothin' else matters
When we are playin'
Our song We survived throughout the joy and all the pain
Coz we are strong, we are brave, don't give a damn
Nothin' else matters when we are playin' Our song
This is our song
Singin' our song
Nothin' else matters
Our song
Playin' our song
List'nin' to our song
Coz nothin' else matters
When we are playin'
Our song
This is our song
Singin' our song
Coz nothin' else matters
When we are playin' Our song... our song
