

People Keep Making People

Beans On Toast

i've got to try not mince my words
i gotta try to keep it simple
i think that noah's ark might laugh at the rhythm and the rhyme and the reason
if there's a method to your madness then why don't you let us know
tell us we're not counting alone

cuz there's not enough fish in the sea today
and there's too many people trying to catch 'em
but maybe the biggest problem is over population

well there's too many people who are angry
too many people who are scared
but people like making people and now there's too many people everywhere

i need a license to go fishing
i need a license to drive
i don't need a license if i wanna become dad

i know my natural instincts tell me to have a go
but another kid's not really what the world needs at the moment

cuz there's so many people here
and there's not enough food left to feed them
let alone the oil and the war and the lack of a personal freedom

there's too many people who are angry
too many people who are scared
but people like making people and now there's people everywhere

but people will always have sex
no one's ever going to stop 'em
there's always been these holes and problems with modern contraception

yet people just want to live
people don't want to die
so we use machines and medicines to prolong peoples' lives

but there's so many people here and we keep on multiplying
maybe the biggest problem is over population

well there's too many people who are angry
too many people who are scared
and people like making people and now there's people everywhere
