To the Moon

Sweet Trip

I've got a rocket in my pocket
And I'm ready to go
I'm talking tic-tic, time bomb
Ready to blow
Just one more time
It's gonna be alright
You're on a first class
Flight to the stars, yeah
Strap me in pretty things
Gonna be a bumpy ride
Don't you hesitate
I'm gonna take you straight
To the moon, babe
Me and you, babe
To the moon, babe
Are you ready to ride?
I'm going till you beg me to stop
If you need a supernova star tour
I'm your guy
You party is a roller coaster
I wanna ride
Hey, hey, hey
Just hold on tight, gonna be all night
You're on a first class flight to the stars, yeah
Strap me in pretty things
It's gonna be a bumpy ride
Don't you hesitate
I'm gonna take you straight
To the moon, babe
Me and you, babe
To the moon, babe
Are you ready to ride?
I'm going to, going to
To the moon, babe
Me and you, babe
To the moon, babe
Are you ready to ride?
I'm going till you beg me to stop
Are you ready for the ride of your life?

I'm gonna give it to you
This is gonna take all night, yeah, baby, yeah
And when we start the countdown
It will be a [Incomprehensible]
So hold on tight
You'll be floating
By the time you are [Incomprehensible]
To the moon, babe
Me and you, babe
To the moon, babe
Are you ready to ride?
I'm going to, going to
To the moon, babe
Me and you, babe
To the moon, babe
Are you ready to ride?
I'm going till you beg me to stop
I can take you to the moon
I'm going till you beg me to stop
