Devil'S Nightmare

Oxide & Neutrino

Advisory - the following lyrics contain explicit language:

I can be evil, I can be good
But I don't know if I really should
Be evil to those jealous
That want to try and intimidate meDare you step into my land
Come imitate me like a foolish man
Enter your dreams like Freddy Krueger
Rip out ya brains, the dark intruderHell raiser another dimension
Terrorize ya soul, now that's my intention
Vampire Count Dracula, bite your neck
Who hahaHunt you down
I come tear out your heart
Werewolf I'm coming in dark
Zombified now mummification, you'll be
If you mess with my patienceI can be evil, I can be good
But I don't know if I really should
Be evil to those jealous MC's
That want to try and intimidate meDare you step into my land
Come imitate me like a foolish man
Enter your dreams like Freddy Krueger
Rip out ya brains, the dark intruderHell raiser another dimension
Terrorize ya soul, now that's my intention
Vampire Count Dracula, bite your neck
Who hahaHunt you down
I come tear out your heart
Werewolf I'm coming in dark
Zombified now mummification
