Forever

Nightcore

I'm all alone in bed
And I can't sleep, I'm feeling blue
I try to close my eyes
But all I'm thinking of is you
Baby, only you
I cry my eyes out, baby
Wondering what I have to do
I look inside my heart and know
For sure this love is trueDay by day, heart to heart, I hope that we will ever be together
Will it be me and you, I dream that our love will last forever
Hold me tight, in your arms, I know we have the strength to stay together
Walk with me, hand in hand, I promise to be there forever, forever
I'm all alone in bed
And I can't sleep, I'm feeling blue
I try to close my eyes,
But all I'm thinking of is you
Baby, only youDay by day, heart to heart, I hope that we will ever be together
Will it be me and you, I dream that our love will last forever
Hold me tight, in your arms, I know we have the strength to stay together
Walk with me, hand in hand, I promise to be there forever, foreverForever (x8)
