

# Ruby Blue

## Sleeping At Last

You'd better stop  
And try to think  
Look what you're doing  
Oh Ruby You never get to give it all you got  
Cause you forgot to take it to the top  
Oh Ruby Blue Why do you make a start  
With no means to go on  
It's on the tip of your  
Ruby please, we used to love you truly  
You used to make us laugh  
It really was a gas  
But now you're a bore One  
Two  
Three It was you  
And them  
And me  
Look what you do  
Oh Ruby Blue You'd better stop  
And try to think  
Look what you're doing  
Oh Ruby  
You never get to give it all you've got  
Cause you forgot to take it to the top  
Oh Ruby Blue Why do you make a start  
With no means to go on  
It's on the tip of your  
Ruby, we used to love you truly  
You used to make us laugh  
It really was a gas  
But now you're a bore One  
Two  
Three It was you  
And them  
And me  
Look what you do  
Oh Ruby Blue Four  
Five  
And six Who would have believed  
It would come to this

Look what you do  
Oh Ruby Blue  
Look what you do  
Oh Ruby Blue
