

# That Teenage Feeling (iTunes Originals Version)

## Neko Case

Now that we've met  
We can only laugh at these regrets  
Common as a winter cold  
They're telephone poles  
They follow each other  
One after another, after another  
Now my heart is green as weeds  
Grown to outlive their season  
And nothing comforts me the same  
As my brave friend who says  
"I don't care if forever never comes  
'Cause I'm holding on  
For that teenage feeling  
Im holding on  
For that teenage feeling." All the love you had  
All we ever knew  
Did they fill me with so many secrets  
To keep me from loving you?  
Cause it's hard  
Hard hard  
Hard
