Dream In Color

Black Lab

Kiss me once just once
Well, you think it's love or something close
Do you recall?
You say I was sleeping
But I know what I saw

There were nights, I swear we flew
Dreaming in color
I was dreaming beside you
Now the sky has gone to gray
The colors have blurred
In this picture we made

Ask me once or twice
Well, they ring them bells
They're throwing rice at you and me
But it wasn't enough
Say what more could I be?

When there were nights, I swear we flew
Dreaming in color
I was dreaming beside you
Now the sky has gone to gray
The colors have blurred
In this picture we made

I sleep all day and watch TV all night
The pictures play in black and white
I close my eyes
I close my eyes 'cause

There were nights, I swear we flew
Dreaming in color
I was dreaming beside you
Now the sky has gone to gray
The colors have blurred
In this pictures we made
