Take Me There

Pacific Soul

Take a moment, time of your life,
To reflect on the good times.
Every day is precious, so make it last.

Stay and let yourself hold on tight
Feel the spirit in time
Many rivers will fall if you allow them to.

Could you take me there
If I bring my mama, say I wanna be with you
No more time to think
Please realize, your love for me is through

I was so blind to see that the love wasnâ€™t really there
But canâ€™t you see that youâ€™re hurting me
Every time you try to take control of my life.
When all you do to me is blow my mind, oh yeah

Could you take me there
If I bring my mama, say I wanna be with you
No more time to think
Please realize, your love for me is through

If you believe that his love wasnâ€™t really there
And it feels as if the life just seems unfair
But if you stay true, and carry on
You will shine through â€˜til the end of time

Could you take me there (could you take me there)
If I bring my mama, say I wanna be with you
No more time to think (no more time to think)
Please realize (please realize)

Your love for me (your love for me)
Your love for me (your love for me)
Your love for me,
Your love for me is through
