Only You

Teddy Pendergrass

Come onYou, you got, you got
You got what I want
You got, you got, you got what I need
Only you, baby, only you
Only you, you, you, you, youI ain't never had nobody
Love me like you do
I ain't never had nobody
Please me through and through
I ain't never had nobody
Talk to me this wayNobody even comes close
When it comes to loving meYou, come on, you got, you got
You got what I want
You got, you got, you got what I need
Only you, baby, only you
Only you, you, you, you, youI ain't never had nobody
In my life before
I ain't never had nobody
Get me the key to the door
I ain't never had nobody
Take away my troublesWhen I'm down and out, girl
You come running on the doubleYou, you got, you got
You got what I want
You got, you got, you got what I need
Only you, baby, only you
Only you, you, you, you, you
You, you, you, you, you, youI ain't never had nobody
Love me like you do
I ain't never had nobody
Please me through and through
I ain't never had nobody
Talk to me this wayNobody even comes close
When it comes to loving meYou, you got, you got
You got what I want, yes, you do
You got, you got, you got what I need
Only you, baby, only you, only you
You, you, you, you, you, you, you, youYou got, you got, you got, you got
You got what I want
You got, you got, you got, you got
You got what I need, yes, you doOnly you, you, only you, you

Only you, you got, you got
You got what I want
You got, you got, you got
