

Sally

King's X

Sally wants to be my friend she wants to be the one
Sally wants to smile and wave at everyone
Sally wants to be in the frame she wants to be the one Sally come around is here for everyone to see
Sally come around is here keep her away from me
Sally come around is here Sally wants to meet my friends, she wants to meet my son
Sally wants to have the lights, she wants to have the fun
Sally wants to be around, she wants to be the one Sally come around is here for everyone to see
Sally come around is here keep her away from me
Sally come around is here Sally wants to be the queen she wants to be the king
Sally wants to have it all she wants everything Sally come around is here for everyone to see
Sally come around is here keep her away from me
Sally come around is here for everyone to see, to see
Sally come around is here keep her away from me
Sally come around is here
