

Natural Wonder

Max Milner

Do you think I'm a no-one?
Buried under a blanket,
Do you think I lost the ball-
Just because I dropped it?
But I keep coming back to swing,
I aint quitting for anything,
Do you think I'm a no-one?
Like I've gone asunder,
It's just a Natural Wonder,
It's just a Natural Wonder...Good, good, good on me,
Right behind my back they say,
Bad, bad, bad on me,
When they gonna figure it out?
You you you gotta come over,
Sit at my kitchen table while I wonder -
If you wanna know,
Things you shouldn't wanna know I wasn't looking for a leg up,
Merely a hand to hold,
It wouldn't have hurt you if you had my back,
Clearly I was on my own...Good, good, good on me,
Right behind my back they say,
Bad, bad, bad on me,
When they gonna figure it out?
You, you you gotta come over,
Sit at my kitchen table while I wonder -
If you wanna know,
Things you shouldn't wanna know Its just a Natural Wonder,
All this Natural Wonder,
We are only human,
We are only human...Good, good, good on me
Right behind my back they say
Bad, bad, bad on me
When they gonna figure it out?
Try, try, try once more
Knocking on a thousand doors,
I bet you imma get back on that horse,
No-ones gonna find me face down -
I said - good, good, good on me,
Right behind my back they say,

Bad, bad, bad on me,
When they gonna figure it out?
You, you you gotta come over,
Sit at my kitchen table while I wonder -
If you wanna know,
Things you shouldn't wanna know
