Rollup at the spot, I seen her, had to meet her
I was at the bar, sippin' and I'm leanin'
I just had to get attention, but didn't wanna mention
How, she just wasn't lookin'
And this ain't what I'm feelin'
Now, movin' on to about to have you later
And now she's my girl, I knew that I wasn't playin' and it's
Better than a friendship, it's kinda like my pension
'Cause I'm savin' all my funds up
And I'm gonna spend it long, long, long
She keep me spinnin' like the blades on my rims and
She keep me with it so I can't trade her in and
She keep me bumpin' up and down like a 6 - 4
She keep my engine runnin' hot like a car show
She keep me spinnin' like the blades on my rims and
She keep me with it so I can't trade her in and
She keep me bumpin' up and down like a 6 - 4
She keep my engine runnin' hot like a car show
She's my movie star and I'm her director
Sweat in the car, driving as fast as we can go
She could be all on me, kissin' me, touching me
I don't wanna stop right now
She don't wanna stop neither
She's a sexy girl, shaped like a Coke bottle
Or a fancy car, the prototype model
She got cars in all the right spots
Keep my engine runnin' hot
I don't wanna slow it down, I'ma let her go
She keep me spinnin' like the blades on my rims and

She keep me with it so I can't trade her in and
She keep me bumpin' up and down like a 6 - 4
She keep my engine runnin' hot like a car show
She keep me spinnin' like the blades on my rims and
She keep me with it so I can't trade her in and
She keep me bumpin' up and down like a 6 - 4
She keep my engine runnin' hot like a car show
Now get my damn trophy
The way she movin' like chest and checker
Black, white, any color, gotta respect her
Double decker flat, yeah, body gotta protect her
Together weather the storm to things get better, never
Fall to the waist, I grace, I cry
Lifeless, lemme add some color to that shine
I like this, bittin', fuckin', all of this for nothing
Shoulda gotten an old shit or somethin'
Some old fools bubblin' and that's what we becomin'
See, you used to be comin', when the engine was runnin'
Now tend to lovin' and you ain't that woman
Mmm, damn, I hate that frontin'
I hate just bumpin' in just case you was wondering
Most wantin' a million and how you wantin' a hundred
I done done it, I done done it
I done done it, I done done it
Up and down like a 6 - 4, party bumpin' hot dro
Droppin' tops and way more, hot like a car show
Y'all know how we do, keep it true, no see through
Now I gotta roll it and and we about to roll
Up, up, up and down like a 6 - 4, party bumpin' hot dro
Droppin' tops and way more, hot like car show
Y'all know how we do, keep it true, no see through
Now I gotta roll it and and we got to roll out, out, out
She keep me spinnin' like them blades on my rims man
She keep me with it so I can't trade her in man
She keep it bumpin up and down like a 6 - 4
She keep my engine runnin' hot like a car show
She keep me spinnin'
Baby can I ride with you
Ride ride ride ride
Feel so good
She keep me spinnin' like the blades on my rims and
She keep me with it so I can't trade her in and
She keep me bumpin' up and down like a 6 - 4
She keep my engine runnin' hot like a car show
She keep me spinnin' like the blades on my rims and

She keep me with it so I can't trade her in and
She keep me bumpin' up and down like a 6 - 4
She keep my engine runnin' hot like a car show
