The Way You Are

Donnis

Ay you know what this is; it's some of that feel good
I know it's been a while since you had some of that baby girl
I know them other dudes they be talkin crazy
Oh they talk oh so crazy
But me, it's just the way that you are
I like you just the way you are
You get compliments
Compliments to me
Cause you complimentin me whenever we in the streets
And them other girls ain't never getting that
They be givin me the goods but I ain't never givin back
No charity and no you ain't sharing me
Apparently you ain't even know that you was beautiful
And I think that that may be somethin you should know
Now that we got that out the way
Baby we good to go
Anywhere that you wanna go,
Acapulco or aspen in the snow
Half of this should know
When they trickin if you got it
Black cards in mine what he got in his wallet
And naw we ain't seen it so naw we don't believe it
Now you see she leavin and you wanna act right dawg
I'm sorry homie but its lights off
Cause when night falls
She make the right calls
And I know that he be asking you to change
He a lame
You don't need to change a thing
You don't need to change a thing
And baby girl in my movie you the star
And I like you just the way that you are
Just the way that you are, you are, you are, you are, you are, you are, you are
Just the way that you are, you are, you are, you are
Just the way that you are
And I like you just the way that you are
Cause you honest
You don't like me cause I'm Donnis

You like me cause I'm real
The type that make you feel
Feelings that you ain't felt
The type that make you melt
The type that make you hot
You ain't getting that a lot
And I'm thinkin why not hun
Cause you got some
That them other girl's ain't got
So Imma thankyour mom
Then I'm gonna thankyour pop
A whole lot and its all cause I can't stop
Thinkin bout you whenever I'm outta town
I don't do layovers cause I wanna lay around
As soon as I touch down whenever I'm in your town
You know that it's going down I don't wanna hear a sound
Don't speak Maxwell or a Pete
As we repeat between sheets like some freaks
You know I'm nasty as I wanna be
And you got anything and everything I wanna see
And I know that he be asking you to change
He a lame
You don't need to change a thing
You don't need to change a thing
And baby girl in my movie you the star
And I like you just the way that you are
Just the way that you are, you are, you are, you are, you are, you are, you are
Just the way that you are, you are, you are, you are
Just the way that you are
And I like you just the way that you are
Yeah baby
I know these
This Other dudes get you down like yourself sometime
But nah baby so beautiful
So, so beautiful
To me
DONNIS!
And I like you just the way that you are
