

Another Day - xKore Remix

Modestep

Cause tomorrow is another day
All your worries leave your sight
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong, cause tomorrow is another day
All your worries leave your sight
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong, cause tomorrow is another day
Cause tomorrow is another day
Cause tomorrow is another day
Cause tomorrow is another day
(Instrumental)
No worries, no troubles
Erase your mind of it's bad ways
Keep smiling, keep fighting
Live for each moment and day
While we're rising
Life's full of compromising
So just live for the moment and save
All your worries for another time
Cause tomorrow is another day
All your worries leave your sight
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong, cause tomorrow is another day
(Instrumental)
All your worries leave your sight
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong, cause tomorrow is another day
Cause tomorrow is another day
Cause tomorrow is another day
Cause tomorrow is another day
