

# Breathing Space

## Pet Shop Boys

When your heart is out of love  
And you're feeling left behind  
Seems the fates aren't on your side  
And the fog has left you blind  
When the pressure's pulling different ways  
Finds you longing for some empty days  
I stop for some breathing space  
I pause in the public place  
Take time from all the time it takes  
To make up for all the big mistakes  
I gotta get out  
I gotta get out  
When your life runs out of steam  
And you need a little time  
If your muse is out of luck  
You might need an extra rhyme  
When your heart escapes your head down waits  
In the growing queue that life creates  
I stop for some breathing space  
Divert from the public place  
  
Return to a private place  
I know it's there just in case  
I gotta get out  
I gotta get out  
Far far away  
I'm goin'  
Far far away  
I gotta get out (Oh-oh oh oh oh)  
I gotta get out (Oh-oh oh oo oo)  
There's a place beyond this world  
Where the mountains meet the sky  
It's a different state of mind  
like a dream where you can fly  
Can I tell you this in confidence?  
I need to regain that old innocence  
I stop for some breathing space  
Divert from the public place  
Return to a private place

I know it's there just in case

I gotta get out

I gotta get out
