

That's What You Get

Palm Trees & Power Lines

That's What you get
For your disregard of my broken heart
That's what you get
For your preppy shirts and your mini skirts
That's what you get
For breaking all the rules
Cause you're so cool
That's what you get
For your dirty mouth, you better wash it out
I know it ain't right it's so wrong
That I want you
Makes no sense at all
The way you make me fall
I'm all about the bad girls
Life of the party, pocket full of money
You know she naughty, and I can't resist
Cause baby you a bad girl
I'm all about it, can't live without it
Floating on a cloud and I can't resist
That's what you get
Now the only goal is to get you home
That's what you get
I'll buy you what you like, girl forget the price
That's what you get
All the diamonds and pearls in the world
That's what you get
When you tear me down, wear me out
Mess around
I'm all about the bad, bad girls
And baby you're a bad, bad girl
