

Coming Down

Starsailor

You don't mind
We not fight
See your close woman
In the night, I'm sober
Still alive
Waste your days
On your own
Gettin' drunk
Gettin' stoned, I'm sober
Still alone
Must I always take a back seat?
Must I always be your clown?
Did you ever really love me?
Were you always comin' down?

See your face
See your eyes
Shouldn't have left
Shouldn't have lied, I'm sober
Spirits die
Must I always take a back seat?
Must I always be your clown?
Did you ever really love me?
Were you always comin' down?
Must I always take a back seat?
Must I always be your clown?
Did you ever really love me?
Were you always comin' down?
